

Mitsui Masking Tape™

Surface Protection Tape

A Product of Mitsui Chemicals Tohcello, Inc.

Mitsui Masking Tape™ is a family of surface protection films used to protect the touch screens of consumer electronics and appliances, and to protect the finished surfaces of precoated metal, enameled steel, stainless steel and surfaced treated aluminum panels during manufacturing

processes. Tape grades made from polyethylene (PE), polypropylene (PP) or PVC base films are available. Transparent, blue or white color tapes are available, depending on the choice of base film and the desired adhesive strength.
